

LOCAL REALTOR CONTINUES TO CLIMB

WORLD RANKINGS

EDMONTON, March 8: Local realtor, Terry Paranych, returned at the weekend from Orlando, Florida, where he was recognized as last year's fourth most successful Re/Max realtor in the world at the company's annual convention. This continues his climb up the company ladder, from eighth position two years ago and fifth position last year.

This statistic becomes more relevant, when set against the total number of Re/Max realtors – 150,000 working in 89 different countries.

“While the industry did see a turn round part way through last year, it was certainly not the busiest time, and therefore more gratifying to see the continued progress up the international sales chart,” said Paranych as he returned to his Edmonton office.

Last year Paranych sold 651 homes, which is slightly less than his record of 855, which he hit in 2006. Based on activities during the first two months of this year, he sees a continued improvement in the overall real estate market.

“I am sure that this year the industry in the Edmonton area will see a big jump in sales. As an example, I had the best February of sales in all my 18 years in the business, and I feel confident that I will retain my leading market share the region's overall increase,” said Paranych.
